

Issued to: **Quinn Transport & Spreading**  
Spreader: 4 Blade  
Certificate No: 731  
Expiry: 9/03/2021  
Vehicle: MAN  
Registration: QTS022

Graphs and tables on the reverse of this certificate show the spreading widths at which this machine can operate, with various products, whilst achieving the industry standard for uniformity of spread. For fertilizer products the standard is a coefficient of variation (CV) of 15% or under and for lime and gypsum the CV is 25% or under.

This certificate presents the results of independent testing using the Fertcare Accu-Spread program.
