Fertilizer Australia

Industry Engagement

Adam Richardson
Cairns 2016

Summary

Perth and Peel Green Growth Plan for 3.5 million
December 2015
Industry Consultative Meeting

Key points raised by Govt. for discussion with Industry were:

- Mandatory soil testing
- Farm mapping
- Farmers to lodge results and recommendations every 3 years
- Fertilizer Australia presented Fertcare and the case for standard soil testing methodologies.
Fertilizer Australia Consultation

Recommendations
• Best practice
• Establish standards for analysis and recommendation
  – Fertcare
• Soil testing to use standard methods and ASPAC laboratory
• Recommendations to be made by both public and private sector advisors

Value for members
• Fertilizer Australia has a “seat at the table” in these types of discussions
• Fertcare and Accu-Spread are seen as good standards for agricultural science
• High level of engagement between Industry and Government
