

Fertilizer 2018 - Machinery Field Day

Start Date: 11/10/2018 8:30 AM

End Date: 11/10/2018 4:00 PM

The Machinery Field Day is a joint initiative between the Australian Fertiliser Service Association (AFSA) NSW branch and Fertilizer Australia. It is a hands-on event that will focus on logistics and precision of agriculture equipment associated with fertilizer and soil amendment products.

The Machinery Field Day will include opportunity to test drive equipment, observe Accu-Spread testing, view the latest machinery and associated technology.

Full pricing, including member discounts is available on the Registration Tab below.

If you have already registered as part of Fertilizer 2018, you don't need to register here.
