

Issued to: Quinn Transport & Spreading
Spreader: 6 Blade
Certificate No: 730
Expiry: 9/03/2021
Vehicle: MAN
Registration: QTS031

Graphs and tables on the reverse of this certificate show the spreading widths at which this machine can operate, with various products, whilst achieving the industry standard for uniformity of spread. For fertilizer products the standard is a coefficient of variation (CV) of 15% or under and for lime and gypsum the CV is 25% or under.

This certificate presents the results of independent testing using the Fertcare Accu-Spread program.

A handwritten signature in black ink that reads "K. Beams".

Kevin Beams, Authorised Fertcare Tester
